Hi Dave and Laura – hope you are holding up. Is there a e-version of the action memo that you can forward to me. I think I missed it on the email from Gary Moore.

Thanks, Dan

Laura

I am sorry, I did not cross check the attachments on the AM. We will need to do that.

I was thinking that we would need the following:

Site Location Map (GKM)

Drainage Path Map (to Lake Powell) - Should show the extent of visible water staining based on aerial overflights and timing of pulse from release time at certain important locations (magor cities, tribal lands, waterbody changes)

Assessment POLREP (from GKM Activities)

Sample Results from GKM acid mine drainage

Volume Calculations from original Release and maybe total released through the end of August

Thanks

Gary Moore

Hello All:

Before this goes to HQ for final review, I wanted it to be reviewed from the Regions. I need your comments back by Monday, September 21 so that we can finalize this and have Region 8 forward on to HQ for a review prior to getting signatures. I am hoping there will not be significant issues since most have seen this as it has gone through development.

For Region 9, I am not sure exactly what the has been from the State of Arizona. Please make sure this is covered appropriately.

Thanks

Gary Moore
